Sport Coupes have long been popular on the Great Lakes, especially with boaters who use their boat mainly for day trips and the occasional overnight jog. Neatly blending large yacht amenities with the sporty handling of an open runabout, Sport Coupes often boast the best of both worlds — such as Monterey's brand-new 360SC, unveiled in February at the Progressive Insurance Miami International Boat Show.

With its cleverly designed seating, thoughtful amenities and entertainment options both above and below deck, the 360SC is equal parts fun and functional. The extended rear swim platform, with its concealed boarding ladder and near-full-width transom seat, speaks to this boat's sporty side, and its focus on having fun on the water.

A starboard-side walk-through provides entry to the main cockpit, which features a comfortable, L-shaped lounge, where a pedestal-mounted removable cockpit table provides space to enjoy conversations and meals. Dual wet bars — to port and starboard — feature solid-surface counter tops, ice keepers, wine Houdinis, refrigerator, and stainless steel sink.

The main salon features an elegantly designed helm station. Overhead, a standard hard top offers sliding side windows plus an electrically controlled center panel in the windshield.

"This new design is the ultimate in day boating, with its flush cockpit and integrated windshield/hardtop and electric center walk-thru," says Mark Owens, Monterey vice president of product design and engineering.

Below, a luxuriously appointed cabin features a spacious dinette and seating area that converts to a comfortable bed. Standard features include a 32-inch LED TV with DVD home theater, Fusion satellite-ready AM/FM stereo with built-in iPod dock, and both dash/cabin remotes.

The 360SC's fully equipped galley includes upper and lower cabinetry, an electric stove, refrigerator, and stainless steel sink and faucet. The fully-enclosed head module, with mirrored vanity storage, sink with faucet, and shower, makes occasional overnight trips more comfortable, while a spacious mid-cabin features sleeping accommodations for two, including storage cabinet with shelves, reading lights and privacy curtain. ★
